CANCER INSTITUTE

Support the Cause

POCKETKNIVES

The fight against cancer touches us all, whether personally or through someone we know. For the past few years, SMKW President Kevin Pipes has battled prostate cancer. We're happy to report that Kevin is a cancer survivor, but there is still much work to be done before cancer is destroyed for all and for good. 50% of the proceeds generated by the sale of the knives will be donated to the Cancer Institute at the University of Tennessee Medical Center in Knoxville. The Cancer Institute is committed to providing cancer patients and their families with comprehensive, coordinated and compassionate care. As one of the most innovative and successful cancer treatment programs in the country, the Cancer Institute offers access to state-of-the-art technology; cutting edge treatment and research, including clinical trials; and a multidisciplinary team ready to meet the physical, emotional and spiritual needs of each patient. For more information about the Cancer Institute at UT Medical Center, please visit www.utmedicalcenter.org.
