

Cancer Program Practice Profile Reports 2021 Annual Report

Performance Measures

The American College of Surgeons Commission on Cancer (CoC), a national accreditation body for cancer programs, began to develop evidence-based measures or accountability measures in 2004. The measures are reviewed and endorsed by the National Quality Forum. As a CoC accredited facility, the University of Tennessee Medical Center (UTMC) Cancer Institute tracks these measures and the Cancer Institute physicians and team members review the results on a quarterly basis to assess performance. Provided below is a comparison of UTMC Cancer Institute data to the most recent CoC National Cancer Data Base information available.

University of Tennessee Medical Center Cancer Institute Cancer Program Practice Profile Reports 2020

	RECRTCT	Colon 12 RLN	Colon ACT	Breast HT	Breast MAC	BCSRT	MASTRT	Breast nBx	LCT	LNoSurg	GLN15
■ 2019 CoC National Data	86.2%	94.1%	87.6%	91.1%	93.0%	91.5%	86.5%	93.0%	89.7%	94%	71%
■ 2020 UTMC CI Data	91.7%	92.9%	100.0%	97.5%	94.4%	96.0%	100.0%	92.7%	92.9%	100.0%	67%
